A private Africa, planned around you

Beyond Africa is a private touring company based in Cape Town. We plan tailor-made safaris and journeys across the finest corners of the continent — from the leopards of the Sabi Sand and the plains of the Serengeti to the waterways of the Okavango and the mountain gorillas of Rwanda and Uganda.

Every trip is built from a blank page. You tell us your dates, your pace and what you most want to see; we handle the lodges, the flights, the guides and every transfer in between. One team, one point of contact, start to finish.

Private & tailor-made

Your own guide, vehicle and itinerary — never a fixed group.

Hand-picked lodges

Camps and lodges we know personally, matched to your style and budget.

On-the-ground support

A real team a WhatsApp away, before you travel and throughout your trip.

When to go

Africa rewards travellers all year. The trick is matching the season to what you most want to see. As a rule, the dry winter months give the best big-game viewing — thinning bush and shrinking waterholes draw animals into the open.

May – September *Dry season*

Prime game viewing across Southern Africa. Cool mornings, sunny days, little rain. Ideal for a first safari.

October – November *Shoulder*

Hot and dramatic, with excellent predator sightings before the rains. Quieter camps and lower rates.

December – March *Green season*

Lush scenery, newborn animals and superb birding. Short afternoon showers. Great value, fewer vehicles.

July – October *Great Migration*

River crossings peak in the Masai Mara. Calving on the Serengeti plains runs late January to February.

INSIDER TIP

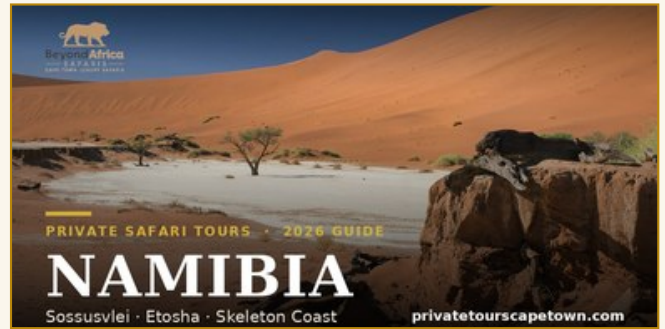

Shoulder months — April and November — give near-dry-season wildlife at low-season prices. We hold quiet-camp allocations our walk-up guests rarely find.
